

Rose Adams Criminal Activity

If you are ever faced with this woman in a court of law this should be helpful to you to establish pattern of dishonesty.

She is an incredible liar, so chances are she will have convinced an official that she is either a victim (if she files a restraining order against you to get you kicked out of your home so she can live rent free for a while) or whether she makes a false report against you to gain extra money to supplement her social security check.

Remember she gets paid to testify, for being a witness and for time and travel.

She did have two social security checks for years as she had filed for her adult son without his knowledge until he found out about it.

Her criminal convictions are for numerous assaults, some against her own children, and for fraud, forgery and other crimes of dishonesty
