Subject: Eslick DUI accident/homicide 12/2012

Message: I believe Carolyn Eslick was in an accident in Monroe circa 12/27/2012 that resulted in the death of a homeless woman bicyclist and that she was DUI at the time. She called the sheriff officer in charge of Sultan, a personal friend of hers who responded to the scene and took her home to sober her up. She also called a high ranking city employee who took charge of the accident scene and helped cover up her involvement. See if you can get a copy of the accident report and investigate this. The officer was fired but hired as a city of Sultan parking enforcement officer. Both Ty Trenary and John

Lovick are aware of this but can do little about it. Please look into this Ms Eslick would be a disaster as county exec IMO. [REDACTED]  
[REDACTED]  
reccommended that I contact you about this issue, I also told Noah Haglund about it..
